EXAMINER'S COMMENT

1. The drawings filed on June 4, 2001 and the Replacement Drawing filed on January 13, 2006 are accepted by the Examiner.

REASONS FOR ALLOWANCE

2. Claims 3-6, 9, and 18-24 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Hyde et al. (US 5,558,186) disclosed a friction disk assembly comprises an annular structural carrier with a friction disk having renewable wear faces mounted on the carrier. Carew (US 2,013,948) disclosed a drum brake with a brake shoe having a main part 14 and subsidiary part 17 with a continuous series of transverse corrugations between the two mating brake parts. However both Hyde et al. and Carew failed to disclose an annular structural core having a first and a second sinusoidally-shaped mounting surfaces, a first and a second frictional lining disks having an annular and sinusoidally-shaped mounting surfaces matingly and directly engaging the first and second mounting surfaces of the structural core.

The aforementioned limitations and the arrangements thereof are not taught in the prior art. In light of the foregoing, the claims of present application are found to be patentable over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
